## “KORFBALL”

### **Teacher Guidelines.**

The following guidelines are supplied to enable teachers to carry out valid and consistent assessment using this internal assessment resource

### **Context and setting**

Students are required to perform in korfball through participation in competitive full court games. There must be adequate opportunity for students to demonstrate their abilities in the roles of attacker and defender.

### **Conditions**

At the culmination of a teaching/learning programme, the students will be involved in competitive korfball games officiated by competent referees.

Team strategies are inherent in the assessment for merit and excellence levels, so must be a part of a teaching-learning programme.

### **Resource requirements**

Standard korfball court and goals.

Availability of playing bibs and balls.

Competent official

### **Additional Information**

Accuracy is essential in measuring and recording results. Students will need instructions and training on being a peer observer. The teacher will need to oversee all games to confirm that the results recorded for assessment by peers are fair and consistent. The contribution of peer observation is primarily targeting better learning. It may also provide additional evidence to support the teacher’s judgement.

Pre and Post-test assessment is related to the physical activity. However skills tests used as formative assessment and teacher observation during the teaching programme may be used to provide additional evidence to support the teacher judgement.

Other factors to consider in game situations:

Balance of skill level between teams;

Maximising opportunity for students to provide evidence; and

Structure teams and competition to allow all players to demonstrate their ability.

<b>Task</b>	<b>Evidence</b>	<b>Judgement towards Achievement</b>	<b>Judgement towards Achievement with Merit</b>	<b>Judgement towards Achievement with Excellence</b>
